

# Home Biometric Screening Kit

Complete your screening at home *and get rewarded.*

## What's Involved? Just 5 Simple Steps.

1. Order your home test kit
2. Prick your finger for your blood sample
3. Self report your height, waist, weight, and blood pressure
4. Mail the lab form and device using the included pre-paid envelope
5. The lab will analyze your blood sample

Your home test kit results will show your levels of total cholesterol, HDL, LDL, and triglycerides.

*Knowing your numbers* and taking steps to optimize your cholesterol and lipid levels is a great way to help reduce your risk for cardiovascular disease.

## What's Included? Everything you Need.

Pre-paid shipping both ways

All materials for sample collection and shipping back to the lab

Detailed directions and an instructional video to guide you

Help along the way from our customer care team

Digital and printable results
